ALEKSEI SHASHKOV

3010, Leuven Belgium | LinkedIn

AShashkov2@gmail.com | +32 470 798 112

SKILLS

Data Analysis tools: Excel, SQL, Google Sheets, Minit, Arbutus Analytics

Programming languages and libraries: Python, Visual Basic, Pascal, Delphi

Database management systems: PostgreSQL

Data visualization tools: Power BI, Qlik Sense, PowerPoint, Tableau

Knowledges: math, statistics, probability theory, SAP, CISA

Experience: internal audit / IT audit; A/B testing; business process modeling

EDUCATION

Data Analyst
SkyPro, online school
2022 - 2023

MINI-MBA Professional
City Business School
2013 - 2014

PhD (Technical Sciences)
Ufa Technical University
1997 - 2000

System engineer
Ufa Technical University
1992 - 1997

LANGUAGE

- English - B2
- Dutch - A1
- Russian - Native

HOBBIES

Camping, travelling, sports, reading, intellectual games

SUMMARY

Customer-focused Data Analyst with solid experience in Information Technology & Internal Audit. My love for numbers, good analytical skills, natural curiosity and knowledge of analytical tools allow me to find patterns and anomalies among large datasets. I am a positive person, ready to work in a team, support corporate values.

EXPERIENCE

BeCode.org   **10/2025 - Present**
AI & Data Science Bootcamp
- Intensive, practical training in Python, ML, SQL, Azure, Power BI and visualization, built around real projects, Git workflows, and shipping results.

Gazprom Neft   **03/2018 - 11/2023**
Internal Auditor / IT Auditor
- conducting audits, analyzing production and financial transactions;
- assessment of the effectiveness of the internal control system;
- assessing risk management and developing recommendations for improving internal processes

SkyPro (Internship)   **12/2022 - 10/2023**
Data Analyst
- Conducting data analyzes in various areas;
- Unloading the array and processing it using various tools;
- Calculation of indicators and metrics and conducting tests, testing hypotheses.

Gazprom Neft Digital Solutions   **05/2008 - 03/2018**
Head of Information Technology Department
- Ensuring the operability of software systems, databases and services;
- Participation in the implementation of projects and technical solutions

TNK-BP (British Petroleum)   **11/2001 - 05/2008**
Head of Information Technology Department
- budget and financial planning, contract management
- modeling of business processes;
- participation in projects to implement information systems

Ufa State Aviation Technical University   **11/1997 - 12/2000**
Researcher
- preparation of scientific work "Application of artificial intelligence methods in medical diagnostics";
- teaching at the university: "Probability Theory and Mathematical Statistics", "Process Modeling".
